THE CADETSHIP EXAMINATION.

COMMUNICATION FROM WM. P. SMYTH-

To the Editor of The Cairo Bulletin : DEARSIR:-Since the final decision of the committee has been rendered, justice demands from me a public statement of the radical facts connected with the recent examination held at Shawneetown. Some three weeks ago there appeared in the Cairo Star a notice, as an extract from the Gallatin Gazette. This notice, supposed to have come from Col. Crebs, called for an examination to be held at Shawneetown on the 2d of August. Therein was stated that, as the object of the examination would be to determine upon some young man whose "merit and character" would render him a fit representative of this district at the United States military academy at West Point, it would be open to all

sional district. Now, Mr. Editor, the principal state ment contained in this notice, and the very one that now recoils upon itself, is that "the committee would be guided in their decision by the strictest impartiality," and that "physical development" and "intellectual advancement" combined with a good moral character, would alone succeed in obtaining this "appointment." It is your duty then, Mr. Editor, to see,

the young men of the Thirteenth congres-

judging from the facts contained in the sequel, if this committee adhered to the above declaration. Upon this supposition I went to Shawneetown, and having arrived the morning previous to the examination found that considerable influence was being brought to bear upon some members of the committee, and that very deep interest was manifested by the friends of the respective applicants. I laughed at their simplicity, supposing that justice and merit would absorb all personal considerations. That evening I underwent the physical process of sounding, contracting, expanding, &c. The doctor pronounced me "physically perfect." The following morning I, in common with seven other applicants, presented myself before the board of examiners for the intellectual test.

The "examine" was a written one. wrote without intermission from 9 a.m. until 2 p.m., at which time I handed in my manuscripts. Now, judging from the concessions made by the committee since my departure from Shawneetown, I passed as good, if not a better examination, than Sanford H. Cochrane, in whose favor they have already rendered their decision. In a conversation with Mr Cochrane he acknowledged my "intel" lectual superiority," but he contended that I was "physically inferior" to him. Bear witness to this you who were present. Now, if Mr. Cochrane's roughness of physique will counteract "intellectual superiority" and 'physical perfection, I will yield in this matter and congratulate Mr. Cochrane on his superb qualification. But if not I call for an impartial decision. I possessed the qualifications set forth in the "notice." What then was necessary ?

I now demand a public examination of my manuscripts. If you deny me this, you will put me to the necessity of challenging S. H. Cochrane to a public examination in any of those branches that constitute a plain or scientific "course." This will do unless you acknowledge in pub ic what you have done in private.

Let me here state that I entertain no ill feeling whatever against my opponent. Charity suggests the contrary. If I won the appointment justly and he

received it at the hands of a partial committee, no blame should be attached to him for accepting it. He has indefatigably labored during the past two years in order to obtain this, and perhaps I am not entitled to it since I didn't study for

it. Hence, the decision of the committee, notwithstanding the tenor of the notice. so frequently referred to in this communication. Unless the committee come forward and enlighten the public upon this scheme," the citizens of Cairo and Southern Illinois will have a "strange idea" of ustice in Shawneetown. I demand a statement. If you deny me this, your own silence will be your condemnation.

Sincerely thanking you, Mr. Editor, for your very kind indulgence, I remain, Yours, Very Respectfully. WILLIAM P. SMYTH.

DR. J. WHITE, of New Orleans, has arrived in Cairo. He comes to our city with remarkably strong letters and testimonials n behalf of his ability, integrity and skill in the cure of all forms of chronic diseases, female ailments, ulcers, cancers, etc. Dr. White has had an experience of over forty years practice, in large cities, both north and south, and furnishes ample proof of the remarkable cures he has efmercial Hotel.

RELIABLE AND SAFE .- Dr. Henry Root and Plant Pills are mild and please ant in their operation, yet thorough, producing no nauses or griping. Being entirely vegetable, they can be taken without regard to diet or business. They arouse the liver and secretive organs into healthy action, throwing off disease with out exhausting or debilitating the system Try them and you will be satisfied Price 25 cents a box. Sold by druggists and dealers in medicine everywhere Prepared by the Grafton Medicine Co., St Louis, Mo.

A Hog GOBBLER IN TROUBLE .- Chief Meyers, a day or two since; deputized Jim Orange to catch hogs for the pound, and Jim went to work with a will. He had very pleasant sailing until he got into "the barracks," and there he ran upon breakers of a dangerous character. After capturing a few stray porkers, the colored citizens gave him warning to desist, and on his failure to obey, they proceeded to pound out of him all his hog capturing enthusiasm. In vain he displayed his badge of office, and the more he protested the harder his assailants pounded him. At last, discouraged, with a sore head and pigless, he retired from the battle, and appealed to Judge Bross for protection, with what result we did not learn. THAT CADETSHIP EXAMINATION .- We

publish this morning, in another column, a communication from Mr. William P. Smyth, one of the unsuccessful applicants for the cadetship offered by Col. Crebs, M. C., to the young man of his district who could stand the best examination before a board of examiners named by himself. The public who do not know the young gentleman may believe that his complaints have grown out of disappoint. ment, but we know this to be an unjust suspicion. He was, undoubtedly, unfairly treated by the committee, each member of which admitted that he stood a much better examination than his successful opponent. But, it seems, the cards had been packed, nothwithstanding the professions of fairness made, and Cochrane was prefarred in despite of the admitted fact that in the examination he fell far short of young Smyth. This may be all right, but we cannot teach ourself to see it in that light. One of the objections urged against Sa.yth was the fact of his residence in Cateo; and another was, that Cochrane wanted the appointment and had a letter of recommendation from Col. Crebs whose near neight or he is. If considerations of this kind were to have effect, why were contestants invited from all parts of the district s-why-to be Irishy-wes not Cairo incontinently kicked out before she got in? We cannot believe that Col. Crebs will countenance partiality of this kind. He is not that kind of a man.

Poisoned to Death .- A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested it fells to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood and be conveyed to every part of the system. What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc.; but these organs become overtaxed in performing this labor, in addition to their natural func-

The brain, which is the great electrical centre of all vitality, is unduly stimulated by the unhealthly blood which passes to it from the heart, and it fails to perform its office healthfully. Hence the symptoms of bile poisoning, which are dullness, headache, incapacity to keep the mind on any subject, impairment of memory, dizzy, sleepy, or nervous feelings, gloomy forebodings and irratability of temper. The blood itself being diseased, as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces discolored brown spots, pimples, blotches and other eruptions, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels, and other organs spoken of, cannot escape becoming effected, somer or later, and costiveness, piler, dropsy, dyspepsis, diarrhoes, female weakness, and many other forms of chronic disease, are among the necessary results. As a remedy for all these various manifestations of disease, Dr. Pierce's Golden Medical Discovery is positively unequaled. By it the liver and stomach are changed to an active, healthy state, the appetite regulated and restored, the blood and secretions thoroughly purified and enriched and the whole system renovated and built up anew.
